

Field Name	Description
Offset	Specifies the offset of the overlay in the page by the following: <ul style="list-style-type: none"> • Measurement method • Across • Down
Measurement method	Specifies the measurement method being used for the offset. <p>Possible values are:</p> <ol style="list-style-type: none"> 1 Row/Column is used as the measurement method. 2 Either inch or centimeter is used as the measurement method depending on the value specified for the <i>Unit of measure</i>. <p>Note: To change both the measurement method and its following fields, you need to change the value for the measurement method and press Enter, before you change the following fields.</p>
Across	Specifies the value of the horizontal distance from the left edge of the logical page to the origin of the source overlay to be created. <p>Possible values are:</p> <ul style="list-style-type: none"> • 0 to 999 (columns) • 0 to 22.25 (inches) • 0 to 57.79 (centimeters)
Down	Specifies the vertical distance from the top edge of the logical page to the origin of the overlay to be created. <p>Possible values are:</p> <ul style="list-style-type: none"> • 0 to 999 (rows) • 0 to 22.25 (inches) • 0 to 57.79 (centimeters)
Grid	Specifies the distance between the grid lines by the following: <ul style="list-style-type: none"> • Measurement method • Across • Down
Measurement method	Specifies the measurement method being used for the grid. <p>Possible values are:</p> <ol style="list-style-type: none"> 1 Row/Column is used as the measurement method. 2 Either inch or centimeter is used as the measurement method depending on the value specified for the <i>Unit of measure</i>. <p>Note: To change both the measurement method and its following fields, you need to change the value for the measurement method and press Enter, before you change the following fields.</p> <p>You can specify to print horizontal and vertical lines with the printout to help your designing work. The following fields specify the horizontal and vertical distances between grid lines.</p>
Across	Specifies the horizontal distance between vertical lines of grid. <p>The valid values are:</p> <ul style="list-style-type: none"> • 1 to 999 (rows) • 0.10 to 22.25 (inches) • 0.10 to 57.79 (centimeters)
