

Equipment NOT Permitted
Red lights visible from front or blue lights. For emergency/law enforcement vehicles only.
More than two spotlights, cowl or fender lights, fog lights, or other extra lights.
A siren, bell, or whistle.
A very loud muffler (heard from more than 50 feet) or one that emits smoke.
Signs, posters, or stickers on the windshield or windows (except if required by law).
A “television-type receiver” that the driver can see.
Headsets/headphones worn by driver while operating a vehicle.

Bumper Height Requirements

Owners of automobiles and pickup trucks are required to have both front and rear bumpers mounted within certain height levels. Height limitations are governed by the net shipping weight of the vehicle, not the modified or altered weight. The maximum allowable heights between the pavement and bottom of the front and rear bumper are:

Vehicle Weight	Front	Rear
Cars < 2500 lbs.	22 in.	22 in.
Cars 2500–3499 lbs.	24 in.	26 in.
Cars ≥ 3500 lbs.	27 in.	29 in.
Trucks < 2000 lbs.	24 in.	26 in.
Trucks 2000–3000 lbs.	27 in.	29 in.
Trucks 3000–5000 lbs.	28 in.	30 in.

EMISSIONS CONTROL DEVICES

It is illegal to tamper with, remove, or cause not to work any pollution control device on your vehicle. Tampering will damage your vehicle and can cause increased air pollution, lower gas mileage, less vehicle efficiency, breathing difficulties.

Keep Your Car in Good Condition

Brakes: Check to see that the pedal stays well above the floor when you step on it. If the car pulls to one side when you use the brakes or if you hear any scraping or squealing noises, your brakes may need to be repaired.

Lights: Check lights often, replace burned-out bulbs and keep lenses clean.

Tires: Inspect often for proper inflation/tire pressure, even tread wear, and damage.

Windows and Windshields: Keep the glass clean inside and out.

Rear window: If the rear window is covered by or treated with any material that makes it nontransparent, the vehicle must be equipped with side mirrors on both sides that allow the driver a view to the rear of at least 200 feet.

Read your vehicle owner’s manual! It is an excellent resource for information specific to your vehicle, such as: what types of fluids your car requires, what dashboard warning lights mean, what your car services intervals are, and more.
