

Evidence will consist in CVs of the team responsible to deliver the service. Each CV should indicate the intended function in the delivery of the service. One person may cover the requirements for both profiles below:

B1 - Project Manager: At least 5 years experience in project management, including overseeing project delivery, quality control of delivered service, client orientation and conflict resolution; experience in a project of a similar size at least € 10,000 and coverage at least 3 countries. The Project Manager should have at least C1 level in the Common European Framework for Reference for Languages in English;

The project manager must not have any scientific conflict of interest e.g. through private sector funding.

Evidence: CV and Annual declaration of interest (see section 4. Annexes)

B2 – Scientific expert in antimicrobial consumption research. The expert should have a relevant higher education degree and at least 5 years' professional experience and proven capability in the area of analysis of antimicrobial consumption and antimicrobial use data;

The expert must not have any scientific conflict of interest e.g. through private sector funding.

Evidence: CV and Annual declaration of interest (see section 4. Annexes)

3.3 Award

3.3.1 Technical tender

The technical tender must cover all aspects and tasks required in the technical specifications and provide all the information needed to apply the award criteria (see section 3.3.2 Award criteria). Tenders deviating from the requirements or not covering all requirements may be rejected on the basis of non-compliance with the tender specifications and will not be evaluated.

In particular, the technical tender should include:

- A description of the approach proposed and the proposed scientific/technical methods to be applied; means to be used to meet the objectives of the terms of reference and assessment of the main issues, limitations, risks of the analyses to be carried out as well as the proposed mitigation measures;
- Details on the allocation of time and human resources and the rationale behind the choice of this allocation. It should also include a description of the involvement of the proposed key experts (roles and responsibilities) to execute the planned activities;
- Details on the quality system which should be specific to the tasks at hand

3.3.2 Award criteria

The contract will be awarded based on the most economically advantageous tender, according to the 'best price-quality ratio' award method. The quality of the tender will be evaluated based on the following criteria. The maximum total quality score is 100 points.

No	Award criteria	Max points
1	Quality of the proposed methodology	50
	<ul style="list-style-type: none"> • The suitability of the general approach of the tenderer's proposal' (20 points). • The degree of comprehensiveness of the required analyses and proposed methods (10 points).
