3. The IFL upgrade daily hardware price includes per IFL for the management enablement level in effect for this machine.

Figure 8-11 On/Off CoD order example

The example order that is shown in Figure 8-11 is an On/Off CoD order for 0% more CP capacity (system is already at capacity level 7), and for two more ICFs and two more zIIPs. The maximum number of CPs, ICFs, zIIPs, and IFLs is limited by the current number of available unused PUs of the installed processor drawers. The maximum number of SAPs is determined by the model number and the number of available PUs on the already installed processor drawers.

To finalize the order, you must accept Terms and Conditions for the order, as shown in Figure 8-12.

Terms of Order

You have requested an On/Off Capacity on Demand, or Temporary Capacity upgrade. Your enterprise has previously accepted the Temporary Capacity terms, restated here. In the event there is a conflict between the terms shown on this website and the terms specified in your contract with IBM, the terms of such contract prevail:

1) upon download and installation of this Temporary Capacity Upgrade, IBM grants you only a temporary license to use the LIC enabling such Temporary Capacity Upgrade. You may use such Temporary Capacity Upgrade only on the TC Eligible Machine for which such LIC is provided, and only to the extent of the authorization identified via the CIU Facility.
