

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reference	Title	Summary	Application date of standard*	Application date for Group*
AASB 13	Fair Value Measurement	<p>AASB 13 establishes a single source of guidance under Australian Accounting Standards for determining the fair value of assets and liabilities. AASB 13 does not change when an entity is required to use fair value, but rather, provides guidance on how to determine fair value under Australian Accounting Standards when fair value is required or permitted by Australian Accounting Standards. Application of this definition may result in different fair values being determined for the relevant assets.</p> <p>AASB 13 also expands the disclosure requirements for all assets or liabilities carried at fair value. This includes information about the assumptions made and the qualitative impact of those assumptions on the fair value determined.</p>	1 January 2013	1 July 2013
AASB 2011-7	Amendments to Australian Accounting Standards arising from the Fair Value Measurement Standard	Consequential amendments to existing Australian Accounting Standards as a result of the adoption of AASB 13 <i>Fair Value Measurement</i> .	1 January 2013	1 July 2013
AASB 2011-9	<p>Amendments to Australian Accounting Standards -Presentation of Items of Other Comprehensive Income</p> <p>[AASB 1, 5, 7, 101, 112, 120, 121, 132, 133, 134, 1039 & 1049]</p>	<p>The main change resulting from the amendments relates to the Statement of Comprehensive Income and the requirement for entities to group items presented in other comprehensive income on the basis of whether they are potentially reclassifiable to profit or loss subsequently (reclassification adjustments). The amendments do not remove the option to present profit or loss and other comprehensive income in two statements.</p> <p>The amendments do not change the option to present items of OCI either before tax or net of tax. However, if the items are presented before tax then the tax related to each of the two groups of OCI items (those that might be reclassified to profit or loss and those that will not be reclassified) must be shown separately.</p>	1 July 2012	1 July 2012
AASB 11	Joint Arrangements	AASB 11 replaces AASB 131 Interests in Joint Ventures and Interpretation 113 Jointly- controlled Entities – Non-monetary Contributions by Ventures. AASB 11 uses the principle of control in AASB 10 to define joint control, and therefore the determination of whether joint control exists may change. In addition AASB 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, accounting for a joint arrangement is dependent on the nature of the rights and obligations arising from the arrangement. Joint operations that give the venturers a right to the underlying assets and obligations themselves is accounted for by recognising the share of those assets and obligations. Joint ventures that give the venturers a right to the net assets is accounted for using the equity method. This may result in a change in the accounting for the joint arrangements held by the group.	1 January 2013	1 July 2013
AASB 12	Disclosure of Interests in Other Entities	AASB 12 includes all disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structures entities. New disclosures have been introduced about the judgements made by management to determine whether control exists, and to require summarised information about joint arrangements, associates and structured entities and subsidiaries with non-controlling interests.	1 January 2013	1 July 2013
