

4. Windsurfing – Playing Environment

Windsurfing is played as the sport of competition as well as recreation. Since this water sport depends on the wind element, this sport is mainly played in the area of large natural water bodies.

Outdoor Windsurfing

In outdoor version, Windsurfing takes place in huge waterbodies such as sea, or large lakes surrounded by nature.

It is mandatory for the surfer to use the safety equipment as the risk involved in this version of sport is more. All the elements of the game are natural hence this version is more challenging.
