

Document:	Annex D - Catalogue of Price
Tender reference number:	2104/C1/D
Title:	ICT racks, cabling and other infrastructure elements

Instructions

The tenderer shall complete the Catalogue of Price with all information requested herein. As a minimum, the tenderer must offer a price and related information for all items marked as mandatory in the Mandatory Items column.

-If a model of the items listed in the Catalogue of Price is superseded by a newer model, the tenderer shall include the price of the newer model and add a remark to indicate the type in the Comments column;

- The tenderer may add additional items not included in the Catalogue of Price which fall within the scope of the contract, by adding additional lines in the sheet Catalogue of Price;

- The Catalogue of Price includes products currently in use at Europol. For products where the brand name is indicated, the tenderer may offer equivalent products with identical or higher specifications from the same brand or another brand. As specified in Section 7.6 – Demonstration of Conformity of Annex 2 - Technical Specifications, where a product of a different brand is offered which falls under the scope of the Demonstration of Conformity, the tenderer must demonstrate that the offered components can be integrated within Europol's ICT infrastructure;

- The prices included in the Catalogue of Price shall be identical to the prices given in Annex C - Financial Tender Form for Scenarios 1 to 6 (as explained in Annex 2 - Technical Specifications). In case of discrepancies, the lower price shall be taken into account at contract implementation.

- The price of cables shall include labelling according requirements specified in Annex 2 - Technical Specifications.
