

4.2. Quality of the implementation	50 – minimum 30
Describe a blueprint of the solution to integrate the new data streams, including: <ul style="list-style-type: none"> The proposed data model for the new data streams including the appropriate controlled terminology, Data scraping examples, Data validation steps and check EFSA controlled terminology, Data historization process and a proposal for integrating the data. 	20
Describe the testing process for each data stream, including automatic test processes if feasible and propose a test document which should be used for outcome acceptance.	20
Prepare a mock-up of the analysis dashboard to be presented to the EFSA staff, of the tool for interactive visualisation and of the reporting tool	10
4.3. Quality of the change management	50 – minimum 35
Describe how you will implement change management for this specific assignment according to process defined for quality criteria 1.3.	30
Describe how you will implement continuous improvement and proactive bug fixing.	20

Criterion 5. SERVICE LEVEL PROPOSALS (60 points – no minimum threshold)

These criteria, described in the table below, have the objective to evaluate the performance quality commitment made by the tenderer for some highly important processes for which the tenderers are invited to propose performance levels beyond the minimum required service levels.
