Total outgoing international long distance minutes increased 6.4% from 2008 to 2009 primarily due to increases in our international long distance wholesale and transit businesses. Our outgoing call volume increased by 7.4% from 2009 to 2010 primarily because we actively develop the market for foreign labor and as a result, the traffic for international pre-paid services increased by 24.4% in 2010 leading also to the overall growth in the international traffic. Our incoming call volume decreased by 4.3% from 2008 to 2009 primarily due to decreased traffic as a result of deteriorating economic conditions and our incoming call volume increased by 2.7% from 2009 and 2010 primarily due to the general recovery of the economy in the ROC.

Outgoing calls made by customers in Taiwan and by customers from foreign destinations using Taiwan direct service are billed in accordance with our international long distance rate schedule for the destination called. Rates vary depending on the time of day at which a call is placed. Customers are billed on a per minute basis for Super eCall services, whereas customers are billed on a six second unit basis for international direct dial services.
