

Contents

1	Introduction	2
1.1	Introduction Overview	2
1.2	QCD	3
1.2.1	The QCD Lagrangian	5
1.2.2	Renormalization	6
1.2.3	The Renormalization Group Equation	6
1.2.4	The beta function	8
1.2.5	The 't Hooft Expansion	12
1.2.6	Anomalous Dimensions	15
1.2.7	Mass gap	17
1.2.8	Chiral Symmetry Breaking	18
1.3	Solving QCD	24
1.4	String Theory	26
1.4.1	Premise	26
1.4.2	World-sheet Boundary Conditions	27
1.4.3	D-branes	30
1.4.4	D-brane action	32
2	AdS-CFT	34
2.1	String description	34
2.2	Supergravity description	37
2.3	Matching the Symmetries	39
2.4	Regime of usefulness	39
2.5	Energy-radius Duality	40
2.6	Explicit Correspondence	41
2.7	Field-operator Matching	42
2.8	Deformations and Adding Flavour	44
