

**(U) SHARE CAPITAL**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Where any Group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

**(V) EMPLOYEE BENEFITS****(i) Wages and salaries, annual leave and sick leave**

Liabilities for wages and salaries, including non-monetary benefits, annual leave, and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable. The liability for employee entitlements is carried at the present value of the estimated future cash flows.

**(ii) Long service leave**

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash flows.

**(iii) Equity settled share option plan**

The Employee Share Option Plan allows Group employees to acquire shares of the Company. The fair value of options granted is recognised as an employee expense in the Income Statement with a corresponding increase in the employee share based payments reserve. The fair value is measured at grant date and spread over the vesting periods. The fair value of the options granted is measured using the Monte Carlo simulation approach, taking into account the terms and conditions upon which the options are granted. When options are exercised the amount in the share option reserve relating to those options, together with the exercise price paid by the employee, is transferred to share capital. When any vested options lapse, upon employee

termination or unexercised options reaching maturity, the amount in the share based payments reserve relating to those options is transferred to retained earnings.

**(iv) Equity settled long term incentive plan**

The Executive and Senior Management Long Term Incentive plan grants Group employees performance rights subject to performance hurdles being met. The fair value of rights granted is recognised as an employee expense in the Income Statement with a corresponding increase in the employee share based payments reserve. The fair value is measured at grant date and amortised over the vesting periods. The fair value of the rights granted is measured using the Kathmandu Holdings Limited share price as at the grant date less the present value of the dividends forecast to be paid prior to the each vesting date. When performance rights vest, the amount in the share based payments reserve relating to those rights are transferred to share capital. When any vested performance rights lapse upon employee termination, the amount in the share based payments reserve relating to those rights is transferred to retained earnings.

**(W) DIVIDENDS**

Dividend distribution to the Company shareholders is recognised as a liability in the Company's and Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

**(X) CASH FLOW STATEMENT**

The following are definitions of the terms used in the Cash Flow Statement:

- a. Cash comprises: cash at bank, cash on hand and overdraft balances;
- b. Investing activities are those activities relating to the acquisition, holding and disposal of property, plant and equipment and of investments. Investments can include securities not falling within the definition of cash;
- c. Financing activities are those activities which result in changes in the size and composition of the capital structure of the Company;
- d. Operating activities include all transactions and other events that are not investing or financing activities.

**(Y) CHANGES IN ACCOUNTING POLICIES**

There were no changes in the accounting policies during the period.
