

program, which integrates care for adults with SMI and children with Serious Emotional Disturbance. Our strategic investment in AlphaCare has given us the opportunity to expand our capabilities in long-term care management and enter the New York market in order to serve the state's Medicaid Managed Long-Term Care and Fully Integrated Dual Advantage populations.

We look forward to entering additional geographies and expanding our capabilities to help special populations achieve a brighter future and better quality of life. We have the right combination of expertise, resources and compassion to successfully provide integrated care. This, combined with our proven talent, focus and execution, will enable us to make our vision a reality.

**Sam K. Srivastava**

Chief Executive Officer, Magellan Healthcare

"We are building a more coordinated care delivery system that manages the whole health of individuals. Enabled by technology, this system will provide better value and access to care for special populations."
