

## Shell and Administration

- [SERVER-17226](#)<sup>191</sup> ‘top’ command with 64MB result document can terminate server
- [SERVER-17405](#)<sup>192</sup> getLog command masserts when given number
- [SERVER-17347](#)<sup>193</sup> .explain() should be included in the shell’s DBCollection help

## Build and Packaging

- [SERVER-17484](#)<sup>194</sup> Migrate server MCI config into server repo
- [SERVER-17463](#)<sup>195</sup> Python error when specifying absolute path to sconscacheDir
- [SERVER-17460](#)<sup>196</sup> LIBDEPS\_v8\_SYSLIBDEP typo
- [SERVER-14166](#)<sup>197</sup> Semantics of the –osx-version-min flag should be improved
- [SERVER-17517](#)<sup>198</sup> mongodb-org rpm packages no longer “provide” mongo-10gen-server

**Logging** [SERVER-16452](#)<sup>199</sup> Failed login attempts should log source IP address

## Platform

- [SERVER-17252](#)<sup>200</sup> Upgrade PCRE Version from 8.30 to Latest
- [SERVER-14166](#)<sup>201</sup> Semantics of the –osx-version-min flag should be improved

**Internal Code** [SERVER-17338](#)<sup>202</sup> NULL pointer crash when running copydb against stepped-down 2.6 primary

## Testing

- [SERVER-17443](#)<sup>203</sup> get\_replication\_info\_helper.js should assert soon rather than assert for log messages
- [SERVER-17442](#)<sup>204</sup> increase tolerance for shutdown timeout in stepdown.js to fix windows build break
- [SERVER-17395](#)<sup>205</sup> Add FSM tests to stress yielding

## 3.0.4 – June 16, 2015

- Fix missed writes with concurrent inserts during chunk migration from shards with WiredTiger primaries: [SERVER-18822](#)<sup>206</sup>
