NEW: Air Quality Assessment Example Guide

How appropriate is a particular analysis type?

There is no single, universal criterion for determining what type of analysis is appropriate for FAA - supported projects or actions.

| Project/Action Category | Operational Emissions Inventory | HAPs Emissions Inventory | GHG Emissions Inventory | Construction Emissions Inventory | Dispersion Modeling |
|------------------------------------|---------------------------------------|--------------------------------|-------------------------------|--|------------------------|
| | Pro | ject Type | - | | |
| New Airport | | | | | |
| New Runway | | | | | |
| Major Runway Extension | | | | | |
| New or Expanded Terminal | | | | | |
| Relocated Terminal | | | | | |
| Roadway Modifications | | | | | |
| New or Expanded Cargo Facility | | TIME TO | 1100 | | |
| New or Expanded Parking | | | | | |
| New or Expanded Utility Plant | | | | | |
| New Fuel Storage System | | | | | |
| New or Modified Taxiway | | | | 107/10/10/00 | |
| Runway Safety Area | | + - + | | | |
| Runway Rehabilitation | | | | | |
| Obstruction Removal | | | | | |
| Air Traffic Control Tower | | | | | |
| | Ac | tion Type | | | |
| Increase in Aircraft Operations | | | | | |
| Change in Runway Utilization | | | | - H | |
| Change in Fleet Mix | | | | | |
| Increase in Taxi Time/Delay | | | | | |
| Increase in Motor Vehicle Trips | | | | | |
| Air Traffic Procedures < 3,000 ft | | | | | |
| Air Traffic Procedures > 3,000 ft | | | | | |
| Land Acquisition | | | | | |
| Navigational System | | | | | |

The symbols indicate the relative level of appropriateness of an analysis to a project/action: ■ = High, ■ = Medium, □ = Low

Importantly, the information provided in this figure is not meant to be definitive or all-inclusive in terms of dictating the type(s) of

'Importantly, the information provided in this figure is not meant to be definitive or all-inclusive in terms of dictating the type(s) of air quality assessments that are required for FAA projects or actions. Rather, the information is provided as a guide in determining which analyses are the most appropriate.
