Figure 6-242   QM1 on IBM Cloud

2. Log in to App Connect Designer.

3. From the Dashboard, click **New** → **Event-driven flow**, and name it as `Process Salesforce Orders`. Figure 6-243 shows the IBM App Connect dashboard.

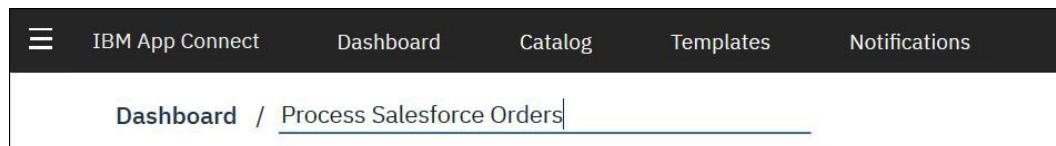

Figure 6-243   ProcessSalesforce Orders

4. Select **MQ with new message arrive on queue** as the event that is to trigger the flow. An IBM MQ connection will be created using the account you added. See Figure 6-244.
