2. In the Certificate Viewer, which is shown in Figure 11, click the **Details** tab and select the root certificate.

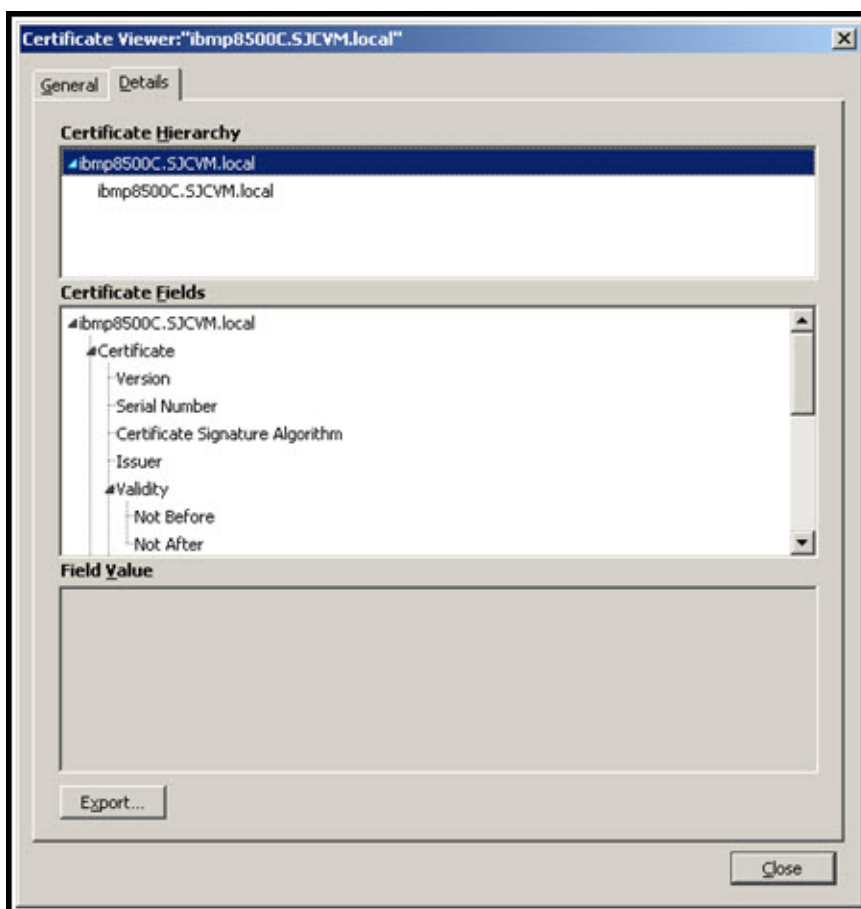

Figure 11. Firefox Certificate Viewer

3. Click **Export** at the lower left of the Certificate Viewer window (Figure 11).
4. Save the file with a `.crt` or `.pem` extension, then close the Certificate Viewer and Security exception windows. Open the Firefox Options menu, as shown in Figure 12.
