Chapter 10. Work with PFD Definitions

This chapter provides additional information for working with PFD definitions.

You can select the following options from this display.
- Creating PFD definition
- Changing PFD definition
- Copying PFD definition
- Deleting PFD definition
- Printing PFD definition
- Renaming PFD definition
- Printing database file

Select 11 (Work with PFD definitions) on the AFP utilities menu on page 139, and press the Enter key. The following display appears:

```
                      Work with PFD Definitions

 File  . . . . . . . . . .    PFUFILE      Name, F4 for list
   Library . . . . . . . .     PFULIB      Name, *LIBL, *CURLIB
 PFD definition . . . . .     *ALL         Name, generic*, *ALL
 Position to . . . . . . .                 Starting characters

 Type options, press Enter.
   1=Create   2=Change   3=Copy   4=Delete   6=Print PFD definition   7=Rename
   9=Print database file

       PFD
 Opt  Definition  Text                                             Changed

      PFD1        Sample PFD definition                            12/13/90
      PFD2        Sample PFD definition                            12/13/90
      PFD3        Sample PFD definition                            12/13/90
      PFD4        Sample PFD definition                            12/13/90
                                                                     Bottom
 Parameters or command
 ===>
 F3=Exit   F4=Prompt   F5=Refresh   F9=Retrieve   F11=Display names only
 F12=Cancel
```

When the definition is the first PFD definition to be created, no definition list appears on the display.

Note: Before you create a PFD definition, you need to create a PFD definition file by using option 1 (Create) on the Work with PFD Definition Files display.

The following tables explain the Work with PFD Definitions display.
